Oury for Territory, H. N. Alexander for defendants.

ON WRIT.

The name of the author of the above can be had by any of the aggrieved jumpers by application to the editor in writing.

MIXER.

A ton of gold or silver contains 29,166 66 ounces. A ton of gold is worth \$612,875. A ton of silver at the present rate per ounce is worth about \$32,000.

The New York Mail under the head-line "Religious Intelligence," prints the news that "a steam flour mill is to be started at Jerusalem." The theologians of the Albany Journal think a religious steam flour mill is one without a dam.

Why Chinamen Never Marry.

The Penal Code of China contains a provision which is as follows:

All persons renouncing their country and allegiance or devising the means thereof shall be beheaded, and in the punishment of this offense no distinction shall be made between principals and accessories.

The property of all such criminals shall be confiscated and their wives and children distributed as slaves to the great officers of state.

It is unlawful by the best chronicler of the most interesting times in this country that this country has ever produced, the value of which will be recognized by all who may use them.

Private citizens of Arizona visiting St. Louis have expressed their conviction that it is morally and socially wrong to have a steam flour mill in the middle of a city.

There is nothing of the kind about that would be a sufficient excuse for such a mill.

It is particularly adapted to numerous districts, and is a

means of sustaining a population of 20,000 people. The development of your resources depends much on the introduction of capital under the direction of capable and honest men. With these essential factors your district as a great

producer is assured.

CLARK, publisher with blows and bawdiness.
